German – Ukrainian Research Workshop

"IT Tools for Integrated Urban Development"

chaired by Prof. Dr.-Ing. Jörg Rainer Noennig

IEEE UKRCON-2019

July 2 - 6, 2019 · Lviv, Ukraine

Important Dates

Paper Submission: **January 31, 2019**
Register as a Presenter: **April 15, 2019**
Register as an Expert: : **April 15, 2019**
Participants Registration: : **April 15, 2019**

Partners

Goal: Outlining the potential for co-developing interactive, open-source digital tools for urban development together with **Ukrainian IT and software experts from academia, public administration, and industry.**

Topics:

- **Data:** Which (open) data are available for urban development tools in Ukraine, and how can they be used?
- **Hardware:** Which (open) systems exist to interact view urban data, and how can they be developed?
- **Software:** Which open software solutions exist for urban analysis and simulation, and how can they be used?
- Outline of **potential cooperation projects** between German research institutions and Ukrainian cities, companies, and universities.
